Subject: RE: Aldicarb team meeting

I have seen the PFTTT presentation that Josh did. Also, I believe a similar presentation was recorded for presentation at ACS. Lastly, the procedures are likely written up in the chlorpyrifos assessment? I'm just thinking we can probably minimize the time burden on Josh.

Steve

I can do that, but not this week, as we just got a Section 18 dropped on us and that's taking priority. But it's not like BEAD is going to get back to us in the next couple of weeks so that should be OK. I will still be at the aldicarb meeting today.

Subject: Aldicarb team meeting

Hi,

I have a NAFTA meeting that will conflict with this reoccurring aldicarb meeting. I think we are still waiting for confirmation on incorporation depth so we can give HED GW numbers. Also, I think we are in a holding pattern on the BEAD data. Josh – while we wait for the BEAD data, it might be good to train Jim/Steve on the method so when we get the data they are more familiar with the process. Thoughts?

Thanks,
Amy
